Day 1: Sesriem Oshana Campsite, Sesriem

As there is no accommodation at Sossusvlei, visitors to this desert wilderness are likely to end up staying at Sesriem, 65 kilometres away, where camps and lodges serve as a base from which to explore the dunes. Sesriem Canyon, a deep chasm carved through the rocks by water, is a striking natural feature of the area that is best explored on foot. Stony walls rise up sharply on both sides of the canyon, while birds roost in its crags and lizards dart along the ledges. The canyon's name was coined when early settlers used it as a water source, using six lengths of leather ('ses riem – six thongs) tied together to lower buckets into the water at the base of canyon.)

Day Itinerary

Day 1 - Saturday

Route: Windhoek to Namib Naukluft Park

Distance: 310 km

Collection time: 08h00 – 08h30 from any accommodation within the City of Windhoek

Journey: we leave Windhoek travelling via the gravel roads and the Khomas Hochland mountain range, this area is one of farming communities till we reach the end of the escarpment (crossing the Tropic of Capricorn) where we descend via the Remhoogte Pass to the settlement of Solitaire. The terrain varies dramatically as we travel to our campsite

where arrival is due mid to late afternoon. Set up camp and visit Elim dune – a great place for sundowners with the dunes behind us and the Naukluft Mountains in the distance.

Overnight: Sesriem Oshana Campsite

Sesriem offers ten (10) self-catering camping facilities with each campsite having its own private toilet and shower, washup kitchenette with hot and cold water and 220V electricity. Campers have full access to the shop, bar, restaurant and swimming pool at Sesriem (NWR).

Activities

Afternoon	Elim Dune

Elim Dune

Just five kilometres from the camp at Sesriem, Elim Dune is best viewed at sunset, when the colours deepen, intensifying the contrast between the red dunes and the purple-blue Naukluft Mountains on the opposite horizon. Elim Dune is roughly 100 metres in height and the climb to its zenith takes under an hour.

Day 2: Sesriem Oshana Campsite, Sesriem

Day Itinerary

Day 2 - Sunday

Route: Sesriem – Sossusvlei - Sesriem

Journey: We'll need to be on the move an hour before dawn as we make our way through a dry riverbed and across the gravel plains towards the Namib Dunes. We'll stop at Dune 45 before making our way to Sossusvlei with age old sands said to be around five million years old. Dead Vlei with its white pan and contrasting black scorched trees is also on our visit list. Whilst this region appears to be lifeless there are a variety of animal species that have adapted to these conditions and if we're lucky may see Oryx antelope, ostrich, springbok and don't forget about the birdlife and reptiles that inhabit the area. Return to our campsite for lunch, late afternoon visit to the Sesriem Canyon where the ephemeral Tsauchab River has shaped the area over millions of years.

Activities

Morning	Dune 45
Morning	Sossusvlei
Morning	Dead Vlei
Afternoon	Sesriem Canyon

Dune 45

Named for its location 45 kilometres past the town of Sesriem, Dune 45 is renowned for its elegant shape, which – along with its position close to the road – have earned it the distinction of 'most photographed dune in the world'. If you're not keen for the strenuous hike to the top of Big Daddy, Dune 45 is a more forgiving alternative, standing at only 80 metres and featuring a much gentler gradient.

Sossusvlei

Located in the scenic Namib-Naukluft National Park, Sossusvlei is where you will find the iconic red sand dunes of the Namib. The clear blue skies contrast with the giant red dunes to make this one of the most scenic natural wonders of Africa and a photographer's heaven. This awe-inspiring destination is possibly Namibia's premier attraction, with its unique dunes rising to almost 400 metres - making them some of the highest in the world. These iconic dunes come alive in morning and evening light and draw photography enthusiasts from around the globe. Sossusvlei is home to a variety of desert wildlife including oryx, springbok, ostrich and a variety of reptiles. Visitors can climb 'Big Daddy', one

of Sossusvlei's tallest dunes; explore Deadvlei, a white, salt, claypan dotted with ancient trees; or for the more extravagant, scenic flights and hot air ballooning are on offer, followed by a once-in-a-lifetime champagne breakfast amidst these majestic dunes.

Dead Vlei

This ancient clay pan was once an oasis, studded with acacias and fed by a river that suddenly changed course, leaving the earth to dry up along with the trees it previously supported. So dry were the climatic conditions that the trees never decomposed – instead they were entirely leached of moisture so that today, 900 years later, they remain as desiccated, blackened sentinels dotting the pan's cracked surface. Surrounded by the red-pink dunes of the Namibia Desert, they create a surreal spectacle that is a photographer's dream.

Sesriem Canyon

Sesriem Canyon, a deep chasm carved through the rocks by water, is a striking natural feature of the area that is best explored on foot. Stony walls rise up sharply on both sides of the canyon, while birds roost in its crags and lizards dart along the ledges. The canyon's name was coined when early settlers used it as a water source, using six lengths of leather ('ses riem – six thongs) tied together to lower buckets into the water at the base of canyon.

The name 'Twyfelfontein' translates to 'Fountain of Doubt', which refers to the perennial spring situated in the impressive Huab Valley flanked by the slopes of a sandstone table mountain. It was this spring that attracted Stone Age hunters over six thousand years ago, and it was during this time that the extensive group of rock engravings and paintings were produced. Visitors can look forward to basing themselves at some wonderfully shady campsites along the Aba-Huab riverbed, while exploring over thirty different sacred ritual sites of the traditional hunter-gatherer communities.

Etosha is protected by the Etosha Pan National Park surrounded by savannah plains and woodlands supporting large herds of elephants. When dry, the pan sustains little life except for the algae that gives it its distinctive colour, and migratory birds that use it as a pit stop, but with heavy rain it becomes a shallow lake where flamingos breed, pelicans wade and feed, and a variety of mammal species come to quench their thirst, including leopards, lions, white rhinos, hunting dogs and antelopes.
