### Activities

Morning	Etosha West
Morning	Etosha Pan
Afternoon	Etosha East

### *Etosha West*

Situated in the western part of Etosha National park, a world-famous wildlife sanctuary in the north-western part of Namibia, Etosha West is the wilder western region accessed through Galton Gate. Visitors to Etosha West can look forward to exploring the magnificent scenery of this remote north Namibian landscape characterised by lush undulating terrain and a reddish-brown soil, which is a stark contrast to the white dusty clay soil of Etosha East's flat expansive plains. This area is home to several species not found in the rest of the park: baboons, Mountain Zebra, and Brown Hyena, as well as several unique plants. The area also boasts numerous waterholes attracting elephant, rhino, leopard, lion, a variety of buck, and around 300 bird species.

### ***Etosha Pan***

Aeons ago, Etosha Pan was the bed of a vast lake; today what remains is a glittering, silvery-green salt pan that stretches across roughly 5000 square kilometres. Etosha is protected by the Etosha Pan National Park surrounded by savannah plains and woodlands supporting large herds of elephants. When dry, the pan sustains little life except for the algae that gives it its distinctive colour, and migratory birds that use it as a pit stop, but with heavy rain it becomes a shallow lake where flamingos breed, pelicans wade and feed, and a variety of mammal species come to quench their thirst, including leopards, lions, white rhinos, hunting dogs and antelopes.

### ***Etosha East***

Located in North-western Namibia, Etosha East is a protected sanctuary in the eastern part of the world-renowned Etosha National Park, known as one of the most accessible game reserves in Southern Africa. Etosha East boasts vast open plains scattered with semi-arid savannah grasslands dotted with watering holes and secluded bush camps. An impressive 5000-square-kilometre Etosha salt pan makes up a large area of the eastern side of the park and can even be seen from space. This remote area teems with abundant wildlife such as lions, elephants, black rhinos and giraffes, as well as a variety of birdlife featuring flamingos, ostriches, eagles, hornbills, and owls.

Sesriem Canyon, a deep chasm carved through the rocks by water, is a striking natural feature of the area that is best explored on foot. Stony walls rise up sharply on both sides of the canyon, while birds roost in its crags and lizards dart along the ledges. The canyon's name was coined when early settlers used it as a water source, using six lengths of leather ('ses riem – six thongs) tied together to lower buckets into the water at the base of canyon.)

Dead Vlei with its white pan and contrasting black scorched trees is also on our visit list. Return to our campsite for lunch, late afternoon visit to the Sesriem Canyon where the ephemeral Tsauchab River has shaped the area over millions of years.

**Activities**

Morning	Dune 45
Morning	Sossusvlei
Morning	Dead Vlei
Afternoon	Sesriem Canyon

**Dune 45**

Named for its location 45 kilometres past the town of Sesriem, Dune 45 is renowned for its elegant shape, which – along with its position close to the road – have earned it the distinction of 'most photographed dune in the world'. If you're not keen for the strenuous hike to the top of Big Daddy, Dune 45 is a more forgiving alternative, standing at only 80 metres and featuring a much gentler gradient.

### ***Sossusvlei***

Located in the scenic Namib-Naukluft National Park, Sossusvlei is where you will find the iconic red sand dunes of the Namib. The clear blue skies contrast with the giant red dunes to make this one of the most scenic natural wonders of Africa and a photographer's heaven. This awe-inspiring destination is possibly Namibia's premier attraction, with its unique dunes rising to almost 400 metres - making them some of the highest in the world. These iconic dunes come alive in morning and evening light and draw photography enthusiasts from around the globe. Sossusvlei is home to a variety of desert wildlife including oryx, springbok, ostrich and a variety of reptiles. Visitors can climb 'Big Daddy', one of Sossusvlei's tallest dunes; explore Deadvlei, a white, salt, claypan dotted with ancient trees; or for the more extravagant, scenic flights and hot air ballooning are on offer, followed by a once-in-a-lifetime champagne breakfast amidst these majestic dunes.

### ***Dead Vlei***

This ancient clay pan was once an oasis, studded with acacias and fed by a river that suddenly changed course, leaving the earth to dry up along with the trees it previously supported. So dry were the climatic conditions that the trees never decomposed – instead they were entirely leached of moisture so that today, 900 years later, they remain as desiccated, blackened sentinels dotting the pan's cracked surface. Surrounded by the red-pink dunes of the Namibia Desert, they create a surreal spectacle that is a photographer's dream.

### ***Sesriem Canyon***

Sesriem Canyon, a deep chasm carved through the rocks by water, is a striking natural feature of the area that is best explored on foot. Stony walls rise up sharply on both sides of the canyon, while birds roost in its crags and lizards dart along the ledges. The canyon's name was coined when early settlers used it as a water source, using six lengths of leather ('ses riem – six thongs) tied together to lower buckets into the water at the base of canyon.
